## **DETAILED ACTION**

### ***Election/Restrictions***

Applicant's election of species I (claims 1-8, 12-15 and 20) in the reply filed on October 6, 2004 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claims 9-11 and 16-19 stand withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1, 4, 8/1, 13, 15/1 and 20 are rejected under 35 U.S.C. 103(a) as being unpatentable over U.S. Patent no. 3,954,226 to Pickering in view of U.S Patent no. 4,161,298 to Davis.

Pickering discloses the elements recited in claims 1 and 13 except for a power-operated driver and a power connector (not shown).

Davis discloses a winding machine using an electric motor 10 to quickly wind strapping.

Art Unit: 3654

It would have been obvious to one of ordinary skill in the art to provide Pickering with a power-operated driver and power connector as taught by Davis so that winding of the straps can be done more quickly without tiring out of the user.

***Allowable Subject Matter***

Claims 2, 3, 5-7, 8/3, 8/5, 8/7, 12, 14, 15/3, 15/5, 15/7 and 15/14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

Applicant's arguments with respect to claims 1-8, 12-15 and 20 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

Applicant's amendment necessitated the new grounds of rejection, e.g. lines 7-11 of claim 1 and lines 6-9 and 12-14 of claim 13.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after

Art Unit: 3654

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
